## Professional Experience

Bocyan Tech Pvt. Ltd.

Chennai

Web Developer

Apr 2024 – Present

- Built responsive, feature-rich applications using Laravel, Core PHP, Bootstrap, and JavaScript.
- Maintained MySQL databases for performance, data consistency, and security.
- Collaborated with designers, backend teams, and QA to ensure timely delivery.
- Implemented clean coding practices, documentation, and conducted regular peer reviews.

## Project Highlights

### ■ Chennai Rental System

- Developed a complete rental management platform using Laravel
- Integrated Bootstrap for responsive UI and AJAX for dynamic, asynchronous operations
- Leveraged Laravel MVC structure and Eloquent ORM for clean code and database interactions

### ■ Sri Senthil Store

- Created a cross-platform supermarket app using Ionic, PHP, and REST API integration
- Implemented secure payments, live inventory sync, and delivery tracking
- Ensured compatibility across Android and iOS devices

#### ■ Yes Bank Document Verification System

- Built a document validation tool with Vue.js frontend and Laravel backend
  - Features included file upload, validation status tracking, and an admin dashboard
  - Used Axios for efficient API communication

- Madras Academy – madrasacademy.com

- Developed a dynamic educational website using Core PHP and MySQL
  - Implemented user-friendly admin panel for content management and student interaction
  - Focused on performance optimization and UI responsiveness

#### ■ City Academy Portal

- Designed and developed a complete education portal using Laravel and MySQL
  - Included modules for course management, student registration, class scheduling, and admin tools
  - Built using modular MVC components for better scalability

- Coffer Website – [cofferapl.com](http://cofferapl.com)

- Built a corporate business website using WordPress CMS
  - Customized WordPress themes and plugins to meet branding and functional requirements
  - Ensured responsive design, SEO optimization, and fast page load times
